Application/Control Number: 10/082,239

Art Unit: 1711

Allowable Subject Matter

The following is an Examiner's statement of reasons for the indication of allowable subject matter:

Applicant(s) claimed invention is directed to an apparatus for producing polycarbonates wherein the crux of the invention lies in the discovery that the particular apparatus with the particular liquid viscosity parameters as claimed is design to reduce the investment and operation costs while avoiding the problems commonly associated therewith such as lack of quality, coloration, as well as cost. Such has neither been anticipated by nor made obvious from the prior art. The art of record demonstrates another two-step process apparatus to produce a polycarbonate in the art which does not, however, contain the advantages as mentioned and neither avoid the problems commonly associated therewith.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Correspondence

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Examiner Terressa Boykin, via the receptionist whose telephone number is (703) 308-2351. The examiner can normally be reached on Monday through Friday from 8:00a.m.-2:00p.m.

However, any inquiry of *MISSING PAPERS should be directed to 703* **305-7874** or if of a general nature or relating to the status of this application should be directed to the Group receptionist whose telephone number is (703)308-2351.
